

# Application Form for Membership

## Individual Membership

The AGTI represents and promotes the teaching of Geography in Ireland. We facilitate the collaboration of geography teachers and the sharing of best practice in geography teaching. Membership of the AGTI is open to all who are involved in the teaching of Geography. Full membership includes the receipt of **Geographical Viewpoint**, the Association's journal and participation in all **activities** of the Association free or at reduced rates. The Association also produces a regular newsletter called **GeoPoint**, which contains details of upcoming events as well as useful information and links on current events of interest to geography teachers. The Association represents the interests of members to the Department of Education, the SEC and the Inspectorate and on the syllabus committees for the certificate courses.

*Privacy Information*

The AGTI does not share personal details with any third party. The details provided above will be for use by the AGTI only for the purposes of membership.

\*Branches: If you are unsure of your branch, you may leave this blank and we will inform you and your Branch of your contact details. If there is no branch in your region or locality, the Association will endeavour to establish a branch there depending on membership numbers. At present, we are seeking to re-establish a branch in Cork and Galway. If you would like to establish a Branch, there is advice and funding available to help you do this. At a minimum a Branch should have 10 members and provide services for several schools in it's locality.
